## FAQ for Learners

### ***How long does it take me to learn to use the platform?***

Moodle is built to be intuitive. With basic web browsing and editing skills., you can learn how to use it instantly!

### ***What I need to know before using the platform?***

You need to know how to login into the site and access your course. You also need to have some web browsing and computer skills. For example, you need to know how to use a keyboard, attach a file, download a file, or upload a file.

### ***Do I have to be online all the time to use the platform?***

The platform is an online learning management system. You will need to be online for sometime to use it but you will be able to download resources on your computer for offline use. Concerning the activities on the platform, most moodle sites use a mix of online and offline learning activities but this will depend on the course you are enrolled in.

### ***Why can't I log in?***

There could be many reasons but the most probable is you have simply forgotten your password, are trying the wrong one or are entering it incorrectly. Some other things to think about include:

- Does your username or password contain a mixture of upper and lower case letters? It should be entered exactly
- Are cookies enabled on your browser

### ***How do I gain access to a course?***

Locate or search for the desired course (you can click "All courses..." in the "My courses" block) and click on the course name. If your teacher has given you an enrollment key, enter it when prompted, and click "Enroll me in this course". Once you are enrolled in a course, it will appear under "My courses" any time that you are logged into your platform.

*Options for user enrolment to a course*

### ***How do I search for any course on the platform?***

If you are not already enrolled in a course you can search for it by name and description using the search bar on the page header.

*Search bar on the top of the page*

### ***How can I see my recent assignment feedback?***

There are many ways you can access their feedback. The most common method is by simply going to the same place where you uploaded the work. Another common method is to follow the link in the recent activity block (if the teacher has included it on the course). Another method would be to access the grade book and then follow the link for the required assignment. Depending upon how the assignment was set up, you may receive an email when it has been marked with a direct link to the feedback.
